

Below are links to electronic copies of county ordinances. With one exception, ordinances are filed with the Register of Deeds in two locations: in a special Ordinance Book and in the larger records of filings with the Register of Deeds. The first number indicates the Ordinance Book number and page number where that ordinance is filed. The date indicates the year the ordinance passed. Information on those filing locations may or may not be found in the body of these electronic records. Copies of ordinances are also on file in the County Administration Office.

The one exception is the 1997 Watershed Management Ordinance. It has no book and page number because it is not filed in the Ordinance Book, but it is filed with the larger record of files held by the Register of Deeds in book 278 beginning on page 1274. A copy is also on file at the County Administration Office. The name on the link is for reference only and is not the official name of the ordinance.

Links open in a new window. A few are quite large and may take several minutes to open on a dial-up connection. Close that window to return to this page.

CAUTION: In many cases, these electronic copies were created by scanning original documents that were then read by OCR (optical character recognition) software. While extremely accurate, OCR is not perfect. Copies may contain typos or other errors. These electronic files DO NOT CONSTITUTE THE OFFICIAL RECORD. For the final determination of what any ordinance says, consult copies with the Register of Deeds or County Administration.

Files require Adobe Reader software. It is available free from [Adobe](#).
